

Winter Landscaping Reminders

Any and all changes to the exterior of your home need to have ACC approval. The ACC Request for Modification form can be found on the Camden Pointe Web Site.

January is a good time to begin a chemical program on your lawn to prevent weeds in the spring.

All pine straw/mulch needs to be replaced/replenished by the end of February.

All shrubbery and ornamental trees need to be properly pruned/trimmed by the end of February.

Remember that shrubs & decorative trees should be at an appropriate level & should not exceed the heights of window sills, porch railings, porch roofs, and stoops.

Excess leaves need to be removed from your lawn. Please remember to bag your leaves and do not blow them into the street or down the sewer drain.
